RE: Facility ID No. ⁰²⁷~~007~~-00009, J.R. Simplot Company, Caldwell
Final Permit

Dear Mr. Carter:

The Idaho Department of Environmental Quality (DEQ) is this issuing Permit to Construct (PTC) No. P-060025 to the J.R. Simplot Co.'s Caldwell, Idaho facility, in accordance with IDAPA 58.01.01.200 through 228 (Rules for the Control of Air Pollution in Idaho). The PTC is for two Cleaver-Brooks boilers with rated capacities of 99 MMBtu/hr. The first Cleaver-Brooks boiler (Unit No. S-C-B9) was installed in 1969, and the second Cleaver-Brooks boiler (Unit No. S-C-B10) was installed in 1972. There are currently no control devices on the boilers.

This letter shall serve as your permit, and is based on your permit application received June 2, 2006. The two boilers shall comply with the following requirement:

- The two boilers shall be fired by natural gas exclusively.

This permit is effective immediately. This permit does not release J.R. Simplot, Caldwell from compliance with all other applicable federal, state, or local laws, regulations, permits, or ordinances. This permit to construct does not contravene any existing Tier I operating permit conditions, therefore the process or equipment may be operated in accordance with the permit to construct before the Tier I operating permit is issued. As you requested, this permit to construct will be incorporated into the Tier I operating permit at the time of renewal.

A representative of the Boise Regional Office will contact you regarding a meeting with DEQ to discuss the permit terms and requirements. DEQ recommends the following representatives attend the meeting: your facility's plant manager, responsible official, environmental contact, and any operations staff responsible for day-to-day compliance with permit conditions.

J.R. Simplot, Caldwell
June 14, 2006

Pursuant to IDAPA 58.01.23, you, as well as any other entity, may have the right to appeal this final agency action within 35 days of the date of this decision. However, prior to filing a petition for a contested case, I encourage you to call Bill Rogers at (208) 373-0502 to address any questions or concerns you may have with the enclosed permit.

Sincerely,

Martin Bauer, Administrator
Air Quality Division
